Form 990PF, Part IX-A Summary of Direct Charitable Activities**FOUNDATION ACTIVITIES**

The Peter G. Peterson Foundation's mission is to increase public awareness of the nature and urgency of key fiscal challenges threatening America's future, and to accelerate action on them. We work to bring Americans together to find and implement sensible, long-term solutions that transcend age, party lines, and ideological divides. We advance our mission through grant-making, education and awareness initiatives, and research and policy analysis.

As part of its mission, the Peterson Foundation has established The Peterson Center on Healthcare, a new organization that is dedicated to making higher quality, more affordable healthcare a reality for all Americans. As a division of the foundation, the Center is working to transform U.S. healthcare into a high-performance system by finding innovative solutions that improve quality and lower costs, and accelerating their adoption on a national scale. The Center collaborates with stakeholders across the healthcare system and engages in grant-making, partnerships, and research.

Grants and Grant-making

The Foundation provides grants to fund a variety of projects and organizations that advance its mission. Grantees include research organizations, foundations, universities, associations, and other not-for-profit entities that engage in activities outlined under grant agreements with the Foundation. These grants support a range of education, engagement, and research projects and initiatives related to the nation's long-term fiscal and economic challenges. A complete listing of our paid grants in fiscal year 2014 can be found in Attachment 21.

Education, Awareness, and Engagement

The Foundation's education, awareness, and engagement initiatives seek to improve Americans' understanding of our nation's long-term fiscal challenges and provide opportunities to participate in finding solutions. The Foundation produces information on fiscal and economic policy topics for the general public; develops print, television, and digital media advertising; and issues policy research briefs and statements around key milestones. The Foundation enables broad discourse regarding fiscal and economic issues through its websites and social media. In addition, the Foundation convenes an annual Fiscal Summit and other events that bring together policy leaders, experts, and elected officials from across the political and ideological spectrum to discuss fiscal and economic issues.

Policy, Research, and Analysis

The Foundation produces non-partisan research, analysis, and other data-driven information to help make complex fiscal and economic issues more understandable and meaningful to the public.

The Foundation's research and analysis are incorporated into its education, awareness, and engagement activities. This material is made accessible on the Foundation's website and includes analyses of budget and economic issues, a library of charts and graphs, and primers and policy research briefs that explain the budget and budget process and the relationship between the budget, the economy, and demographic trends. The Foundation's research efforts are also reflected in speeches, articles, and presentations.
